Subject: GASB Reporting and Disclosure Information for Measurement Period Ending June 30, 2021

Dear Members of the Board:

This report contains information for each of the five retirement systems (i.e. South Carolina Retirement System, Police Officers Retirement System, Judges and Solicitors Retirement System, General Assembly Retirement System, and South Carolina National Guard Supplemental Retirement Plan) in connection with the Governmental Accounting Standards Board (GASB) Statement No. 67, "Financial Reporting for Pension Plans." Additionally, this report provides employers participating in the South Carolina Retirement Systems with information that is required in connection with GASB Statement No. 68, "Accounting and Financial Reporting for Pensions." This information can be used by participating employers in financial reporting for fiscal years ending between (and including) June 30, 2021 and June 30, 2022. The information provided herein was prepared for the purpose of assisting the South Carolina Public Employee Benefit Authority (PEBA) and participating employers in compliance with the financial reporting and disclosure requirements of GASB Statement Nos. 67 and 68.

The liability calculations presented in this report were performed for the purpose of satisfying the requirements of GASB Statement Nos. 67 and 68 and are not applicable for other purposes, such as determining the plans' funding requirements. The calculation of the plan's liability for other purposes may produce significantly different results. This report may be provided to parties other than PEBA only in its entirety and only with the permission of PEBA.

The total pension liability, net pension liability, and sensitivity information shown in this report are based on an actuarial valuation performed as of July 1, 2020. The total pension liability was rolled-forward from the valuation date to the plan's fiscal year end, June 30, 2021, using generally accepted actuarial principles. There was no legislation enacted during the 2021 legislative session that had a material change in benefit provisions for any of the systems. In FY 2021 the Board adopted updated demographic assumptions. Also, the General Assembly permitted the investment return assumption at July 1, 2021 to decrease from 7.25% to 7.00%, as provided by Section 9-16-335 in South Carolina State Code.

This report provides the Collective Pension Amounts under GASB Statement No. 68 which will be allocated to employers participating in SCRS and PORS. The proportionate share of the Collective Pension

5605 North MacArthur Boulevard | Suite 870 | Irving, Texas 75038-2631

Amounts for employers that participate in SCRS and PORS, the cost-sharing multiple employer systems maintained by PEBA, are provided in an appendix to this report.

During the measurement period ending June 30, 2021, the State made a nonemployer contribution directly to SCRS and PORS. The appropriated funds have been determined not to qualify as a Special Funding Situation under GASB 68 for financial reporting purposes.

The information contained herein is based upon information furnished by PEBA, which includes benefit provisions, membership information, financial data, and employer contributions and employer credit from the State's contribution on the employers' behalf. We did not audit this data and information, but we did apply a number of tests and concluded that it was reasonable and consistent. GRS is not responsible for the accuracy or completeness of the information provided by PEBA.

This report complements the actuarial valuation report as of July 1, 2020, provided for plan funding purposes, which was also provided to the Board and should be considered together as a complete report for the measurement date of June 30, 2021. Please see the actuarial valuation report as of July 1, 2020 for additional discussion of the actuarial valuation, including the nature of actuarial calculations and more information related to participant data, economic and demographic assumptions, and benefit provisions.

To the best of our knowledge, this report is complete and accurate and is in accordance with generally recognized actuarial practices and methods. All three of the undersigned are members of the American Academy of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion herein. Each of the following consultants are experienced in performing valuations for large public retirement systems.

DISCUSSION

Discussion

Accounting Standards

For pension plans that are administered through trusts or equivalent arrangements, Governmental Accounting Standards Board (GASB) Statement No. 67 establishes standards of financial reporting for separately issued financial reports and specifies the required approach for measuring the pension liability. Similarly, GASB Statement No. 68 establishes standards of financial reporting for employers whose employees participate in a pension plan.

The following discussion provides a summary of the information that is required to be disclosed under GASB Statement Nos. 67 and 68. A number of the required disclosure items under this standard are provided in this report. However, certain information, such as notes regarding accounting policies and investments, are not included in this report. Participating employers will be responsible for preparing and disclosing that information to comply with these accounting standards. Much of this additional information can be readily obtained from PEBA's 2021 Annual Report.

Measurement of the Net Pension Liability

The net pension liability is the total pension liability, less the amount of the plan's fiduciary net position. In actuarial terms, this is analogous to the accrued liability as measured using the individual entry age normal actuarial cost method less the market value of assets (not the smoothed actuarial value of assets in the actuarial valuations based on the Board's adopted assumptions and methods).

The total pension liability, net pension liability, and sensitivity information shown in this report are based on an actuarial valuation performed as of July 1, 2020. The total pension liability was rolled-forward from the valuation date to the plan's fiscal year end, June 30, 2021, using generally accepted actuarial principles. We adjusted the liabilities to reflect the updated demographic assumptions adopted by the Board in FY 2021, as well as, the decrease in investment return assumption from 7.25% to 7.00%, as provided by Section 9-16-335 in South Carolina State Code. It is our opinion that this procedure is reasonable, appropriate, and complies with applicable requirements under GASB Statement Nos. 67 and 68.

The single discount rate was based on an expected rate of return on pension plan investments of 7.00%. Based on the stated assumptions and the projection of cash flows, the pension plan's fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The projection of cash flows used to determine the single discount rate for the SCRS and PORS assumed that the funding policy specified in the South Carolina State Code will remain unchanged in future years. Similarly, it is also assumed that the current funding policy for the JSRS, GARS, and SCNG will be maintained by PEBA in future years.

Methodology for Proportionate Shares

The proportionate share of the Collective Pension Amounts for employers that participate in SCRS and PORS, the cost-sharing multiple employer plans maintained by PEBA, are provided in an appendix to this report. The allocation of the employers' proportionate share of the Net Pension Liability and Pension Expense was determined using the employers' contributions for fiscal year 2021 (including contributions the employers made to the system on behalf of working retirees, and members in the State ORP) and allocated nonemployer credit for that year. This method is expected to be reflective of the employers' long-term contribution effort as well as be transparent to individual employers and their external auditors.

For the measurement period ending June 30, 2021, the State made a nonemployer contribution directly to SCRS and PORS. The appropriated funds have been determined not to qualify as a Special Funding Situation under GASB 68 for financial reporting purposes. The participating employers will receive a proportionate share of the Net Pension Liability and Pension Expense determined in accordance with paragraph 48 of GASB Statement No. 68. In accordance to paragraph 58 of GASB Statement No. 68, the participating employers will recognize revenue equal to their credited share of the State's appropriation.

Summary of Population Statistics

The total pension liability described in this report is based on the plan membership as of July 1, 2020:

Membership Status	SCRS	PORS	JSRS[1]	GARS	SCNG
	(1)	(2)	(3)	(4)	(5)
Inactive plan members currently receiving benefits:[2]	146,131	19,625	223	338	4,981
Inactive plan members entitled to but not yet receiving benefits:	198,926	18,811	4	35	1,739
Active Plan Members:	201,144	27,795	142	87	12,099
Total Plan Members:	546,201	66,231	369	460	18,819

[1] JSRS count may differ from the valuation count due to unfilled positions.

[2] Includes retirees, beneficiaries, disabled members, and members receiving an annuity while contributing as a return to work retiree.

Recognition of Deferred Outflows and Inflows of Resources

According to paragraph 33 of GASB Statement No. 68, *differences between expected and actual experience* and *changes in assumptions* are recognized in pension expense using a systematic and rational method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the pension plan (active employees and inactive members) determined as of the beginning of the measurement period.

At the beginning of the measurement period ending June 30, 2021, the expected remaining service lives of all employees was the following for each retirement system and the average of the expected remaining service lives for purposes of recognizing the applicable deferred outflows and inflows of resources established in the 2021 fiscal year.

Development of Average Expected Remaining Service Life	**SCRS**	**PORS**	**JSRS**	**GARS**	**SCNG**
	(1)	**(2)**	**(3)**	**(4)**	**(5)**
Total expected remaining service lives of all employees (years):	2,135,770	273,538	1,372	443	214,170
Total plan members:	546,201	66,231	369	460	18,819
Average expected remaining service life (years):	3.910	4.130	3.718	0.963	11.381

Additionally, differences between projected and actual earnings on pension plan investments should be recognized in pension expense using a systematic and rational method over a closed five-year period. For this purpose, the deferred outflows and inflows of resources are recognized in the pension expense as a level dollar amount over the closed period identified above.

*The Allocated Nonemployer Contribution Credit on Appendix B-1 represents the total amount of funds appropriated and received by the trust fund and was therefore used to calculate each entity's proportionate share. Although the rounded amount agrees with PORS Nonemployer contributions reported in the financial statements, a slight reconciliation difference exists which will be resolved in FY 2022.

[1] The actuarially determined contribution rate for SCRS and PORS is determined in accordance with South Carolina State Code. The contribution rate for fiscal year 2021 is determined in accordance with the Retirement System Funding and Administration Act of 2017.

[2] The actuarially determine contribution rate for JSRS adopted by the PEBA Board is 62.94% of pay. In addition, the State makes $2.9 million in non-payroll based appropriations as part of the State's total contribution effort.

[3] Includes employer contributions on employee payroll and contributions remitted to SCRS on the payroll of employees participating in the State ORP. Total contributions for SCRS and PORS includes nonemployer contributions.

[4] Projected covered employee payroll is based on the actuarial valuation associated with the measurement date.

[5] The actuarially determined contributions are based on the funding policy maintained by the South Carolina Public Employee Benefit Authority.

[6] GARS was closed to new members beginning with the 2012 general election. Employer contributions to the SCNG are not a function of pay.

Notes to Schedule of Employers' and Nonemployer's Contributions

The actual contribution rates and the actuarially determined contribution rates documented in the schedule on the previous page for SCRS and PORS are determined in accordance with Sections 9-1-1085 and 9-11-225 of the South Carolina Code, respectively. Contribution requirements for JSRS, GARS and the SCNG are determined in accordance with funding policies established and maintained by the PEBA Board. The actuarial methods and assumptions used to determine the contribution rates reported in that schedule are as follows:
