

EXPRESS SCRIPTS®

Our Disclosure and Confidentiality Policy

Protecting the confidentiality of the information you, your health plan and your healthcare providers share with us is important to Express Scripts. We promise to use this information only to deliver the services your health plan has contracted with us to provide, or to provide you with helpful information.

In the ordinary course of business, we sometimes need to share information about you with your plan administrator, doctor, hospital, pharmacist or health plan in full accordance with the terms of your prescription-benefit plan. We may also use certain information about you to identify individuals who would benefit from programs your health plan has contracted with us to provide. Additionally, we may (1) use and disclose your personal information for the purposes of managing payment or performing healthcare operations, (2) analyze utilization information in the aggregate (with no link to your identity) to study and suggest benefit designs for your plan administrator or health plan, and disclose this aggregate data to third parties; and (3) license aggregate data (with no link to your identity) to third parties for research purposes. In response to court order, subpoena, search warrant, law or regulation, we may be legally compelled to release your personal information. If that happens, we will ask the requesting party for assurances that you have been notified, unless doing so would violate the law or court order. Additionally, we may be required or permitted in some situations to disclose your personal information to government authorities to facilitate certain governmental functions.

Other than the circumstances listed above, we will not use or disclose any personal information to a third party without your express permission.

Your prescription-drug plan uses a preferred drug list (formulary) that includes both generic and preferred brand-name drugs. Listed below are some nonformulary brand-name medications with examples of selected alternatives that are on the formulary. The list is not all-inclusive and does not guarantee coverage. Not all the drugs listed are covered by all prescription-drug benefit programs; check your benefit materials for the specific drugs covered and the copayments for your prescription-drug benefit program. Please share this information with your doctors and ask them to prescribe formulary medications when medically appropriate.

PLEASE NOTE: Brand-name drugs may move to nonformulary status if a generic version becomes available during the year.

2016 Express Scripts Basic Formulary

Nonformulary Medications	Formulary Alternative(s)	Nonformulary Medications	Formulary Alternative(s)
ACCU-CHEK METERS/STRIPS	FREESTYLE METERS/STRIPS, ONETOUCH METERS/STRIPS	OMNARIS	flunisolide, fluticasone, triamcinolone acetonide, NASONEX, QNASL
