2021 Insurance vendors

Welcome

There are certain times throughout the year when you may enroll in insurance coverage or make changes to your coverage. Review this summary and use the appropriate worksheet on Pages 26 and 27 to plan the 2021 health coverage and additional benefits that are best for you and your family.

Eligibility

Eligible employees generally are those who:

- Work full-time for and receive compensation from the state, a public higher education institution, a public school district or a participating optional employer, such as a participating county or municipal government; and
- Are hired into an insurance-eligible position.

Generally, an employee must work at least an average of 30 hours per week to be considered employed full time and eligible to participate in the insurance program.

New hires

Your employer will initiate the enrollment process. You will need to provide a valid email address to your employer, then make your elections online through MyBenefits by following the instructions in the email you receive from PEBA.

From the date you become eligible, you have 31 days to enroll in your health insurance and other available insurance benefits.

Open enrollment is October 1-31, 2020.

During open enrollment, eligible employees may change their coverage for the following year. Review your current coverage in **MyBenefits** (mybenefits.sc.gov). If you are satisfied with your current elections, the only thing you need to do is re-enroll in MoneyPlus flexible spending accounts. All open enrollment changes take effect January 1, 2021.

Take note of the call-out boxes in each section of this summary reminding you of what you can do this year during open enrollment. Use the worksheet on Page 26 to track any of your changes. You can also visit the open enrollment webpage, peba.sc.gov/oe, to learn more.

Log in to MyBenefits (mybenefits.sc.gov) to make your coverage selections during open enrollment.

Step 1: Choose your health plan.

Your insurance needs are as unique as you are. You may meet your deductible each year, or maybe you can't remember the last time you saw a doctor. No matter your situation, the State Health Plan gives you two options to cover your expenses: the Standard Plan or the Savings Plan.

The Standard Plan has higher premiums and lower deductibles. The Savings Plan has lower premiums and higher deductibles. Learn more about the plans at peba.sc.gov/health.

	Standard Plan	Savings Plan
Annual deductible	You pay up to \$490 per individual or \$980 per family.	You pay up to \$3,600 per individual or \$7,200 per family. ¹
Coinsurance²	In network, you pay 20% up to \$2,800 per individual or \$5,600 per family.	In network, you pay 20% up to \$2,400 per individual or \$4,800 per family.

The TRICARE Supplement Plan provides secondary coverage to TRICARE for members of the military community who are not eligible for Medicare. For eligible employees, it provides an alternative to the State Health Plan.

2021 Monthly premiums

If you work for an optional employer, verify your rates with your benefits office.

	Employee	Employee/spouse	Employee/children	Full family
Standard Plan	\$97.68	\$253.36	\$143.86	\$306.56
Savings Plan	\$9.70	\$77.40	\$20.48	\$113.00
TRICARE Supplement	\$62.50	\$121.50	\$121.50	\$162.50

¹ If more than one family member is covered, no family member will receive benefits, other than preventive benefits, until the \$7,200 annual family deductible is met.

² Out of network, you will pay 40 percent coinsurance, and your coinsurance maximum is different. An out-of-network provider may bill you more than the State Health Plan's allowed amount. Learn more about out-of-network benefits at peba.sc.gov/health.

³ The \$14 copayment is waived for routine mammograms and well-child visits. Standard Plan members who receive care at a BlueCross-affiliated patient-centered medical home (PCMH) provider will not be charged the \$14 copayment for a physician's office visit. After Standard Plan and Savings Plan members meet their deductible, they will pay 10 percent coinsurance, rather than 20 percent, for care at a PCMH.

⁴ The \$105 copayment for outpatient facility services is waived for physical therapy, speech therapy, occupational therapy, dialysis services, partial hospitalizations, intensive outpatient services, electroconvulsive therapy and psychiatric medication management.

⁵ The \$175 copayment for emergency care is waived if admitted.

⁶ Inpatient hospitalization requires preauthorization for the State Health Plan to provide coverage. Not calling for preauthorization may lead to a \$490 penalty.

⁷ Prescription drugs are not covered at out-of-network pharmacies.

⁸ With Express Scripts' Patient Assurance Program, members in the Standard and Savings plans will pay no more than \$25 for a 30-day supply of preferred and participating insulin products in 2021. This program is year-to-year and may not be available in the following year. It does not apply to Medicare members, who will continue to pay regular copays for insulin.

Tobacco-use premium

If you are a State Health Plan subscriber with single coverage and you use tobacco or e-cigarettes, you will pay an additional \$40 monthly premium. If you have employee/spouse, employee/children or full family coverage, and you or anyone you cover uses tobacco or e-cigarettes, the additional premium will be \$60 monthly.

The premium is automatic for all State Health Plan subscribers unless the subscriber certifies no one he covers uses tobacco or e-cigarettes, or covered individuals who use tobacco or e-cigarettes have completed the Quit For Life[®] tobacco cessation program. The tobacco-use premium does not apply to TRICARE Supplement subscribers.

What you can do during open enrollment:

- Change from one health plan to another:

Standard Plan members

Medical Spending Account

Your Standard Plan works great with a Medical Spending Account (MSA). Use your MSA to pay for eligible medical expenses, including copayments and coinsurance. As you have eligible expenses, you can use a debit card for your account or submit claims for reimbursement. You can carry over into 2022 up to \$550 in unused funds from your account. You forfeit funds over \$550 left in your account after the reimbursement deadline. You must re-enroll each year.

Savings Plan members

Health Savings Account

Your Savings Plan is designed to go hand in hand with a Health Savings Account (HSA). With an HSA, you can save up to \$875 a year in taxes.²

- Pay for out-of-pocket medical expenses, such as deductibles and prescriptions.
- Carry over all funds from one year to the next.
- You own the account and keep it if you leave your job or retire.
- While there is an annual contribution limit, there's no limit to how much you can save in your account.
- You can invest funds to earn investment income tax-free.

Limited-use Medical Spending Account

If you have a Health Savings Account, you can also use a Limited-use Medical Spending Account to pay for those expenses the Savings Plan does not cover, like dental and vision care. You can carry over into 2022 up to \$550 in unused funds from your account. You forfeit funds over \$550 left in your account after the reimbursement deadline. You must re-enroll each year.

Account type	Plan	Funds available	Medical expenses	Dental, vision expenses	Balance carries from year to year	Invest funds	Re-enroll each year
MSA	Standard	January 1	✓	✓	Up to \$550		✓
HSA	Savings	As deposited	✓	✓	✓	✓	
Limited-use MSA	Savings	January 1		✓	Up to \$550		✓

¹ Contributions made before taxes lower your taxable earned income. The lower your earned income, the higher the earned income tax credit. See IRS Publication 596 or talk to a tax professional for more information.

² Based on a hypothetical individual with an income of \$40,000 per year, taxed at 25 percent, who contributes \$3,500 to his HSA in 2021.

Step 6 continued

All members

Pretax Group Insurance Premium feature

This feature allows you to pay insurance premiums before taxes for health, vision, dental and up to \$50,000 of Optional Life coverage. You do not need to re-enroll each year.

Dependent Care Spending Account

You can use a Dependent Care Spending Account (DCSA) to pay for daycare costs for children and adults. It cannot be used to pay for dependent medical care. You submit claims for reimbursement as you have eligible expenses. The funds can be used only for expenses incurred January 1, 2021, through March 15, 2022. You forfeit funds left in your account after the reimbursement deadline. You must re-enroll each year.

Be a smart health care consumer. Look at your Explanation of Benefits (EOB) after you receive services and compare your provider's bill to the amount listed on your EOB.

What's an EOB?

This is a report that's created whenever the health and dental plans process a claim. An EOB shows you:

- How much your provider charged for services.
- How much the Plan paid.
- The amount you will be responsible for, such as your copayment, deductible and coinsurance.
- The total amount you may owe the provider (does not include any amount you've already paid).

EOB

1. Summary information

This is a view of the status of your claim and the amount you may owe or have already paid to providers.

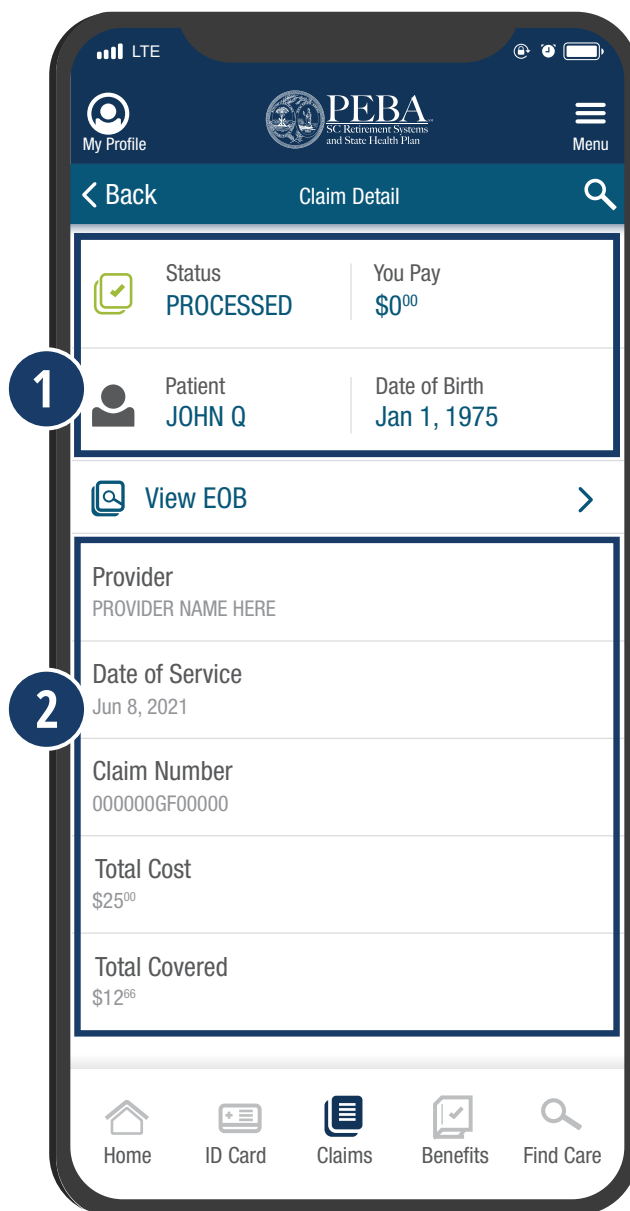

2. Detailed information

Here you'll see the provider's name, the service date and the claim number. You'll also find the total charge for the claim from the provider and the amount covered by the Plan.

Go green!

View your EOBs on the My Health Toolkit app! Plus, you can choose paperless notifications, and we'll email you whenever a new EOB is ready to view.

1. Log in to your account via the mobile app.
2. Select the **My Profile** link under the menu.
3. Select **Contact Preferences**.

Adult well visits and the Standard Plan

Well visits may be a key part of preventive care. They can reassure you that you are as healthy as you feel, or prompt you to ask questions about your health. Learn more about adult well visits and when they are covered at peba.sc.gov/well-visits.

How the benefit works

Evidence-supported services, based on United States Preventive Services Task Force (USPSTF) A and B recommendations, are included as part of an adult well visit under the State Health Plan. After talking with your doctor during a visit, the doctor can decide which services you need and build a personal care plan for you. Adult well visits are subject to copayments, deductibles and coinsurance in covered years.

Who is eligible?

The benefit is available to all non-Medicare primary adults ages 19 and older who are covered by the Standard Plan. Adult members can take advantage of this benefit at an eligible network provider.

Eligible female members may use their well visit at their gynecologist or their primary care physician, but not both, in a covered year. If a woman visits both doctors in the same covered year, only the first routine office visit received will be covered. Women ages 18-65 can receive a Pap test each calendar year at no member cost through PEBA Perks. In years when you are not eligible for an adult well visit, you can still receive a Pap test at no member cost.

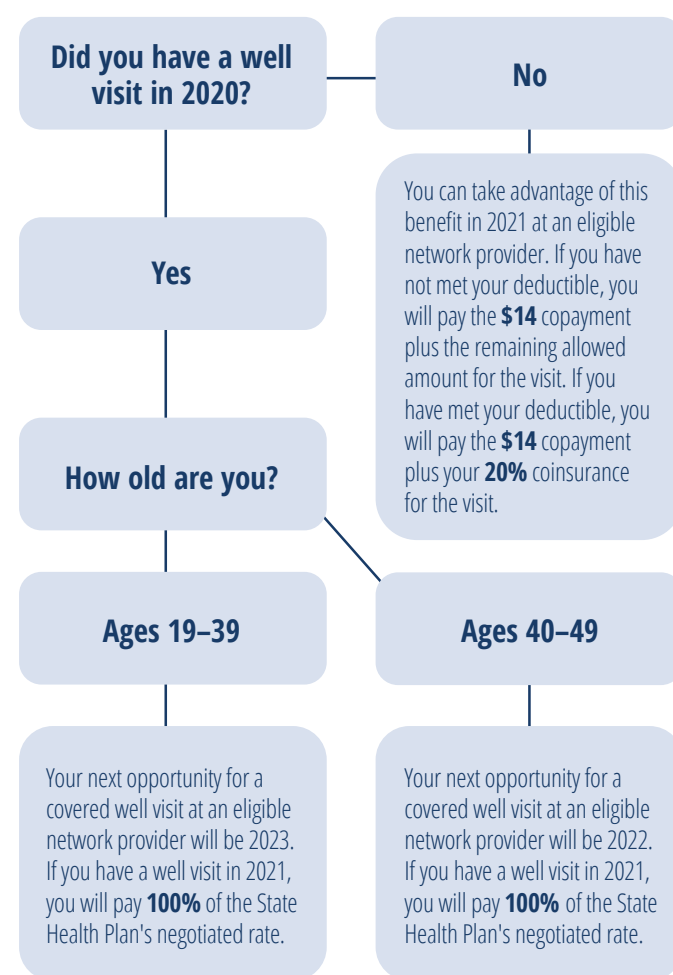

Frequency of visits

The Plan will cover only one visit in covered years, based on the following schedule:

	Once a year	Once every two years	Once every three years
Ages 19–39			✓
Ages 40–49		✓	
Ages 50 and older	✓		

Can you get a well visit in 2021 if you're younger than age 50?

Members ages 50 and older can have a well visit every year. Members younger than age 50 can determine when they may have a well visit below.

In non-covered years, the amount you pay for a well visit will not apply toward your deductible or coinsurance maximum.

How to get the most out of your benefits

The State Health Plan offers many value-based benefits at no member cost to its primary members through PEBA Perks. Plus, you can set aside money pretax in your MoneyPlus account to pay for your adult well visit. Learn how to coordinate your MoneyPlus and PEBA Perks benefits with your adult well visit below.

Step
1

Set aside money in your MoneyPlus account. Estimate how much you will spend on your adult well visit in a covered year or a non-covered year. Include this amount on the worksheet on Page 11 to determine how much you should contribute to your MoneyPlus account. \$_____

Step
2

Get your preventive screening. You can receive a biometric screening at no cost, which will minimize cost to you at your adult well visit.

Step
3

Have your adult well visit after your preventive screening. USPSTF A and B recommendations are included as part of an adult well visit. After talking with your doctor during a visit, the doctor can decide which services you need and build a personal care plan for you.

Step
4

Share your preventive screening results with your doctor. You will receive a confidential report with your screening results, and we recommend you share it with your doctor to eliminate the need for retesting at a well visit. Sharing your results will minimize the cost of your adult well visit.

Step
5

Follow your doctor's recommendations and stay engaged with your health. We encourage you to take advantage of the other PEBA Perks available to you. If you're eligible, sign up for No-Pay Copay to receive certain generic drugs at no cost to you. Learn more on Page 20.

Services not included as part of an adult well visit

Services not included as part of the adult well visit are those without an A or B recommendation by the USPSTF. Find these recommendations at www.USPreventiveServicesTaskForce.org. Other services, including a complete blood count (CBC), EKG, PSA test and basic metabolic panel, if ordered by your physician to treat a specific condition, may still be covered.

These services are subject to copayments, deductibles and coinsurance, as well as normal Plan provisions. Follow-up visits and services as a result of your well visit are also subject to normal Plan provisions.

Important note about well visits

The 2021 well visit benefit structure is dependent upon General Assembly approval of the fiscal year 2021 budget. The budget is not finalized at this time. The benefit structure will be available at peba.sc.gov/well-visits by October 1, 2020.

Adult well visits and the Savings Plan

Savings Plan members are eligible for one well visit each year at no member cost. Evidence-supported services, based on the USPSTF A and B recommendations, are included as part of an adult well visit. After talking with your doctor during a visit, your doctor can decide which services you need and build a personal care plan for you.

Value-based benefits at no cost to you

It's always better to address a health issue before it becomes a health crisis. Visit a network provider or pharmacy to take advantage of these value-based benefits at no cost to you. These benefits can help make it easier for you and your family to stay healthy. For more details about PEBA Perks, including eligibility, visit www.PEBAperks.com.

Preventive screening

Identifying health issues early can prevent serious illness and help save you money. This benefit, worth more than \$300, allows you to receive a biometric screening at no cost.

Have your adult well visit after your preventive screening.

Share your results with your network provider to eliminate the need for retesting at a well visit. Sharing your results will minimize the cost of your adult well visit.

Flu vaccine

The flu affects between 5 and 20 percent of the U.S. population each year. An annual flu vaccine is the best way to reduce your risk of getting sick and spreading it to others.

Adult vaccinations

Vaccines are one of the safest ways to protect your health and the health of those around you. The State Health Plan covers adult vaccinations, including the Shingrix vaccine, based on age, interval and medical history recommendations from the Centers for Disease Control and Prevention (CDC).

Well child benefits (exams and immunizations)

This benefit aims to promote good health and prevention of illness in children. Covered children through age 18 are eligible for this benefit. The State Health Plan covers doctor visits based on recommendations from the American Academy of Pediatrics and immunizations based on recommendations from the CDC at network providers.

Colorectal cancer screening

Colorectal cancer is the second-most common cause of cancer deaths in the U.S. The State Health Plan covers the cost for both diagnostic and routine screenings based on age ranges recommended by the United States Preventive Services Task Force (USPSTF). Any facility charges or associated lab work as a result of the screening may be subject to patient liability.

Cervical cancer screening

Cervical cancer deaths have decreased since the implementation of widespread cervical cancer screenings. The State Health Plan allows women ages 18-65 to receive a Pap test each calendar year at no cost. For women ages 30-65, the Plan covers the HPV test in combination with a Pap test once every five years at no cost.

No-Pay Copay

No-Pay Copay encourages members to be more engaged in their health — and saves them money. By completing certain activities in Rally each quarter, members can receive certain generic drugs the next quarter at no cost. Covered conditions include:

- High blood pressure and high cholesterol.
- Cardiovascular disease, congestive heart failure and coronary artery disease.
- Diabetes.

Mammography

A mammogram is an important step in taking care of yourself. This benefit provides one baseline routine mammogram (four views) for women ages 35-39. Women ages 40 and older can receive one routine mammogram (four views) each calendar year. The State Health Plan also covers diagnostic mammograms, which are subject to patient liability.

Diabetes education

Managing your diabetes can help you feel better. It can also reduce your chance of developing complications. This benefit provides diabetes education through certified diabetes educators.

Tobacco cessation

This benefit provides enrollment in the Quit For Life program at no cost. It also includes a \$0 copay for some tobacco cessation drugs to eligible participants.

Breast pump

This benefit gives members certain electric or manual breast pumps at no cost. Members can learn how to get a breast pump by enrolling in the maternity management program, Coming Attractions.

Lactation consultations through Blue CareOnDemand

This benefit allows members to video chat with a lactation consultant at no cost. Get help for many of the common issues associated with breastfeeding from the comfort and privacy of your own home. And, it doesn't have to stop after the first visit. You can schedule follow-up appointments at a time and frequency that are right for you. Appointments are available seven days a week.

Helpful terms

Insurance lingo can be confusing. But, it's important to understand your benefits and how they work. Here are some terms you may need to know.

Allowed amount The maximum amount you may pay a network provider for a covered service. Network providers have agreed to accept the Plan's negotiated rates as their total fee.

Benefits The items or services covered by your insurance plan.

Claim A request for payment that you or your provider submits after you receive services.

Coinsurance This is a percentage of the cost of health care you pay after you meet your deductible. For example, say the State Health Plan's allowed amount for an office visit is \$114 and the member has met his deductible. After a Standard Plan member pays the \$14 copayment, his coinsurance payment of 20 percent would be \$20. The health plan pays the rest of the allowed amount, or \$80.

Coinsurance maximum The amount of coinsurance you are required to pay each year before you are no longer required to pay coinsurance.

Copayment The fixed amount you pay for a covered health care service or drug. Standard Plan members pay prescription drug copayments and copayments for office visits, emergency care and outpatient facility services. Savings Plan members do not pay copayments. Standard Plan members will continue to pay copayments even after meeting their deductible.

Coverage review A blanket term for the different types of processes the Plan uses to ensure the safe and effective use of prescription drugs and to encourage the use of lower-cost alternatives when possible.

Deductible The amount you pay for covered services before your health plan begins to pay.

Dependent An eligible child or spouse covered by your health plan.

National Preferred Formulary The formulary, or list of preferred drugs, used by Express Scripts.

Negotiated rate The maximum amount you may pay a network provider for a covered service. Network providers have agreed to accept the Plan's negotiated rates as their total fee. The negotiated rate is the same as the allowed amount.

Network A group of facilities, providers and suppliers under contract to provide care for people covered by a health, dental or vision plan.

Out-of-pocket costs These are your costs for expenses that aren't reimbursed by insurance. Out-of-pocket costs include deductibles, coinsurance and copayments for covered services, plus all costs for services that aren't covered.

Preauthorization A decision that a service, prescription drug or piece of equipment is medically necessary. Certain services and medications require preauthorization before you receive them, except in an emergency. You may also hear this referred to as precertification or prior authorization.

Premium The amount you pay for insurance coverage.

Provider This can refer to the medical professional who delivers care or the location where you receive health care services.

Grandfathered notice

The S.C. Public Employee Benefit Authority believes the State Health Plan is a “grandfathered health plan” under the Patient Protection and Affordable Care Act (the Affordable Care Act). As permitted by the Affordable Care Act, a grandfathered health plan can preserve certain basic health coverage that was already in effect when that law was enacted. Being a grandfathered health plan means that your plan may not include certain consumer protections of the Affordable Care Act that apply to other plans, for example, the requirement for the provision of preventive health services without any cost sharing. However, grandfathered health plans must comply with certain other consumer protections in the Affordable Care Act, for example, the elimination of lifetime limits on benefits.

Questions regarding which protections apply and which protections do not apply to a grandfathered health plan and what might cause a plan to change from grandfathered health plan status can be directed to the plan administrator at 803.737.6800 or 888.260.9430.
